MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

The Company operates the Proshred system, and derives revenues from franchise and other fees as well as royalty and service related fees. In addition to operating the Proshred franchise system, the Company operates four corporate locations in Syracuse, Albany, Milwaukee and New York City. The Company also incurs costs related to managing the Proshred system, including salaries and administration.

Franchising & Licensing

System Sales

Franchisees, corporate and international locations derive revenue by providing shredding services to their customers, and by selling recycled paper and other recyclable by-products. These sales are commonly referred to as "system sales," and are the key driver of royalty and service fee revenue. System sales are denominated and reported in US dollars during the reported periods as follows:

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

System Sales Quarter Over Quarter:

System sales are broken into three categories, scheduled service sales, unscheduled service sales and recycling.

Service related system sales, scheduled and unscheduled, were US\$2,971,133 for the second quarter of 2012, growing by US\$335,332 or 13% over the second quarter of 2011. For the six months ended June 30, 2012, service related system sales were US\$5,890,346, growing by US\$690,358 or 13% over the same period in 2011.

Scheduled sales:

Scheduled sales are defined as the revenue generated from customers with regular service that may occur on a weekly, bi-weekly, or monthly basis. Proshred sales and marketing strategies have been and continue to be focused on this particular sales category, as this provides our franchisees and corporate locations with stable and recurring cash flows. This focus resulted in continued growth in this category in the second quarter of 2012 versus the same quarter in 2011. For the three months ended June 30, 2012, scheduled sales reached a record high of \$1,861,610.

An example of unscheduled sales is when an accounting firm is required to destroy an abundance of confidential working papers and documents after their tax season. For the three months ended June 30, 2012, unscheduled sales reached a record high of \$1,109,523. For the six months ended June 30, 2012, unscheduled sales reached a high of \$2,189,681, growing 21% over the same period in 2011.

Recycling sales:

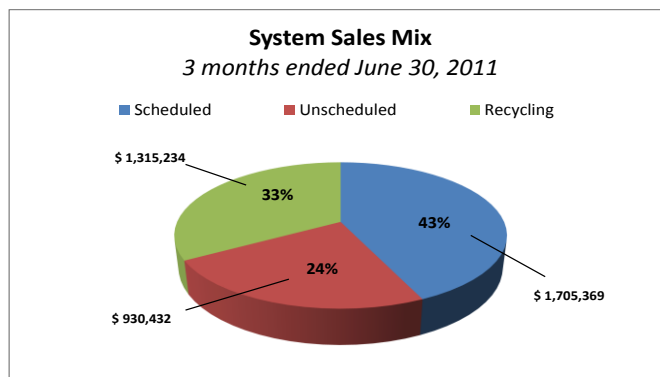

Recycling sales are defined as the revenue generated from the shredded paper and other material that is sold to various recycling companies. This sales category is driven by the price of paper, which is impacted by global supply and demand for shredded paper and the volume of paper recycled which is measured in tonnes. From the last quarter of 2009 to the third quarter of 2011, the price of recycled paper products increased and grew to near record highs to \$247 per ton, on average, in the Proshred system. For the three months ended June 30, 2012, paper prices attained by the system have decreased by 45% over the prior year comparative period. For the six months ended June 30, 2012, paper prices attained by the system have decreased by 41% over the six months ended June 30, 2011. The decrease in paper prices has been slightly offset by an 8% and 12% increase in tonnage recycled within the system during the three and six months ended June 30, 2012, respectively.

During the first half of 2012, the Company entered into an agreement with its Chicago South franchisee to expand their "Proshred" shredding franchise to include the Chicago North area, representing 3.4 territories. As a result, the Company earned US\$93,300 in franchise fees. Royalties and service fees are charged for use of the trademarks and system, franchise and license fee revenue is generated when a franchise or license is awarded and training is completed. Royalty and service fees for the three months ended June 30, 2012 were lower than the second quarter of 2011 due to the conversion of the New York City franchise location to a corporate location as well as the 45% decline in paper prices which resulted in slightly lower system sales.

The Company derives all franchise and license related revenues in US dollars which are translated at the average exchange rate for the period. For the three months ended June 30, 2012, royalty and fee revenues were US\$205,921. For the six months ended June 30, 2012, royalty and fee revenues were US\$500,446.

Shredding service and recycling revenue is generated by our corporate locations in Albany, Syracuse, Milwaukee and New York City. Total shredding related revenue for the three months ended June 30, 2012 increased substantially over the second quarter of 2011 due to the acquisition of the New York City franchise on January 1, 2012. These revenues are generated in US dollars which are translated at the average exchange rate for the period. For the three months ended June 30, 2012, shredding service and recycling revenues, denominated in US dollars were US\$749,984. For the six months ended June 30, 2012, shredding service and recycling revenues, denominated in US dollars were US\$1,554,311. Operating costs increased over the same periods in the prior year as a result of higher truck repair and maintenance costs in New York City, which led to increased costs of operation as well as increased downtime. This led to the deferral of some service to the third quarter of 2012 versus the second quarter of 2012. The New York City location incurred \$44,470 in truck repair and maintenance costs during the six months ended June 30, 2012. Subsequent to the third quarter, the Company replaced two of its existing shredding vehicles with new shredding equipment with a view to minimize service disruptions and repair costs. The Company continues to assess its truck fleet to ensure that customer service levels are maintained at high levels, and operational efficiencies are maximized.

For the three and six months ended June 30, 2012, depreciation and amortization increased significantly as a result of the acquisition of the New York City location on January 1, 2012.

The Company posted an operating loss of \$315,387 for the three months ended June 30, 2012 and an operating loss of \$491,200 for the six months ended June 30, 2012. Immediately after the purchase of the New York City business, the Company commenced a review of the New York City operations and then implemented a cost reduction program and a route optimization program with a view towards improved results. For the six months ended June 30, 2012 the operating loss was also driven by increased professional fees related to the remaining litigation. In addition, the Company generated revenues by awarding the North Chicago, IL franchise in the first quarter of the year.

Interest income and expense

Interest income is derived from cash savings accounts held by the Company and by way of finance income related to the financing of franchise fees. Interest expense is attributed to the use of the Company's line of credit facility which bears interest at 10% per annum as well as interest on the loan agreements, which bears interest at 8.14% per annum. All interest costs have been attributed to the acquisition of corporate locations to date. Interest expense increased in the first half of 2012 as a result of the use of the line of credit to acquire the New York City business on January 1, 2012.

Selected Quarterly Results (continued)

System sales, specifically scheduled and unscheduled sales, continue to grow each quarter, driven by the Company's sales and marketing programs that are aimed at educating clients on the legislative requirements to destroy confidential information using a secure on-site solution. As shredding customers are serviced during business days, the quarterly system sales are impacted by the number of business days in any given quarter. Therefore, the Company experiences higher system sales and related royalty fees and corporate revenues in the 2nd and 3rd quarters of every year and lower system sales and related royalty fees and corporate revenues in the 1st and 4th quarters of every year.

From the last quarter of 2009 to the third quarter of 2011, the price of recycled paper products increased and grew to near record highs of \$247 per ton, on average. From the third quarter of 2011 to the second quarter of 2012, paper prices decreased 52% to an average low of \$118 per ton. For the three months ended June 30, 2012, paper prices have decreased by 45% over the prior year comparative period. For the six months ended June 30, 2012, paper prices have decreased by 41% over the six months ended June 30, 2011. The decrease in paper prices has been slightly offset by an 8% and 12% increase in tonnage recycled within the system during the three and six months ended June 30, 2012, respectively.

Royalty fees in the second quarter of 2012 decreased over the prior quarters as a result of the conversion of the New York City franchise location to a corporate location as well as the drastic decline in paper prices. This has been offset by the franchise fee earned related to awarding the North Chicago franchise in the first quarter of the year. The lower royalty fees in the 4th quarters of 2011 and 2010 were driven by the conversion of three franchise locations to corporate locations, partially offset by the increase in system sales and franchise fees earned related to awarding new franchisees or licensees.

The Company continues to closely monitor and control on-going operating costs related to franchising and licensing. During the 4th quarter of 2011, on-going operating costs related to franchising and licensing include bad debt expense of \$59,341 related to one franchisee.

Financial Condition, Capital Resources and Liquidity

As of June 30, 2012, the Company has working capital of \$363,589 (December 31, 2011 - \$2,982,233). The Company also has access to a \$6 million line of credit, of which \$5.62 million has been drawn as of June 30, 2012. The decrease in working capital was due to the fact that the Company used \$2.5 million of the cash to purchase the New York City business on January 1, 2012.

The Company monitors its cash balances and cash flows generated from operations to meet its requirements. Based on overall cash generation capacity and overall financial position, while there can be no assurance, management believes the Company will be able to meet financial obligations as they come due over the next twelve months. On October 31, 2011, the Company's line of credit was increased to \$5.37 million and the funds were used to acquire the New York City franchise on January 1, 2012. During March 2012, the line of credit was increased to \$6.0 million. The line of credit is repayable on November 27, 2014 with interest payments due semi-annually, all other terms of the agreement remained unchanged. The accounts payable, accrued liabilities and current portions of the notes payable and long-term debt of \$666,372 at June 30, 2012 (December 31, 2011 - \$771,541) are due to be settled within one year from the balance sheet date. It is management's plan to continue its core business strategy of (1) conducting accretive acquisitions, and (2) continuing to franchise in the United States. The Company estimates that it will be necessary to conduct one acquisition and to award between two and four new franchise locations over the next 12 months in order to achieve a breakeven level of cash-flows. One-time franchise fees from new franchises have historically generated between \$35,000 and \$100,000 per franchise location. Additionally, new franchise locations add to recurring royalty and fee revenues.

The Company has the following lease commitments:

Actual results could differ materially from those estimates and assumptions. These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The significant areas of judgements, estimates and assumptions are set out in Note 4 of the consolidated financial statements found in Redishred's 2011 Annual Report. The complaint has listed the following causes of action, (1) breach of contract and breach of the implied covenant of good faith and fair dealing by Proshred Franchising Corp. ("PFC"), (2) fraudulent misrepresentation by PFC, (3) negligent misrepresentation by PFC, and (4) violation of various state laws by PFC. As of June 30, 2012, two franchisees remained in the legal complaint and two franchisees had permanently withdrew from the legal complaint in conjunction with the Company purchasing their Proshred business. Subsequent to the second quarter, on July 13, 2012, the Company announced that in conjunction with the purchase of the Proshred Miami business, the Miami franchisee permanently withdrew from the legal complaint. As of August 21, 2012, one franchisee remains in the legal complaint.

The Company intends to vigorously defend against this remaining claim. The Company is strongly of the view that it (1) has not breached any contracts or agreements with its franchisees and has acted in good faith with all franchisees, (2) has not made any fraudulent misrepresentations to any franchisees, (3) has not made any negligent misrepresentations to any franchisees, and (4) has complied with all state laws as well as Federal Trade Commission rules and regulations regarding franchising.

The final outcome with respect to this claim cannot be predicted nor can the costs to defend this claim be quantified with certainty and therefore there can be no assurance that its resolution will not have an adverse effect on the Company's consolidated financial position. No amounts, other than legal costs, have been accrued in these consolidated financial statements relating to this claim.

Subsequent Events

On July 13, 2012, the Company completed the acquisition of the assets of Sunshine State Shredding LLC, from an existing Proshred franchisee in Miami. The Company satisfied the purchase price in part by setting off approximately \$270,000 USD owed by the vendor and an additional \$15,000 USD of the purchase price is subject to earn-out. The Company funded the \$120,000 USD balance of the purchase price by drawing from its line of credit facility. In conjunction with the purchase of the business, the exiting franchisee withdrew from the legal complaint filed against the Company in June 2010.

On August 13, 2012, the Company entered into an agreement with a new franchisee to operate a Proshred shredding business in Houston, Texas. The franchise fee associated with this new franchise will be recognized in the third quarter of 2012. The Company expects its new franchise to commence operations in the fourth quarter of 2012.
